About AssetPlus

AssetPlus is an end-to-end platform for financial advisors and investors to scale businesses/manage investments digitally. The mutual fund industry in India has experienced significant growth in recent years, presenting a lucrative opportunity for professionals looking to make an impact in the financial services sector.

Role Overview

As an SDE at AssetPlus, you'll collaborate with our experienced engineering team, learning how to design, develop, and maintain key platform features. You'll work with the latest tools, develop skills in backend and frontend technologies, and contribute to projects impacting lakhs of users.

Tech Stack

Our engineering team leverages a well-optimized tech stack for ease of learning and seamless development. This includes:

1. NodeJS with TypeScript (Backend)
2. ReactJS with TypeScript (Web)
3. Flutter (Mobile)
4. MongoDB (Database)
5. AWS

Responsibilities

1. Coding & Development: Assist in building core platform features using NodeJS, TypeScript, and ReactJS
2. Team Collaboration: Work closely with developers and product teams to deliver features and gain exposure to the product lifecycle
3. Quality Assurance: Participate in code reviews and testing to ensure quality and reliability
4. Documentation & Learning: Document code and processes for better team collaboration and future onboarding
5. Feature Enhancement: Support senior developers in optimizing existing features and system performance.

Basic Qualifications

1. Currently pursuing a degree in Computer Science or a related field
2. Comfortable with JavaScript or a similar programming language
3. Strong problem-solving skills and willingness to learn
4. Good technical communication skills
5. Ability to work collaboratively in a team environment

Preferred Qualifications

1. Exposure to web or mobile development through coursework or projects

2. Familiarity with NodeJS, ReactJS, or TypeScript
3. Contributions to open source projects

Perks

1. A vibrant office environment in Chennai
2. Flexible work timings and support for learning alongside work
3. Complimentary lunch and a well-stocked pantry
4. Mentorship from senior engineers to guide your growth

Interview Process

1. Online Assessment
2. Coding Assignment
3. Interview 1
4. Interview 2
